INDEPENDENT AUDITORS' REPORT

To the Members of
Spike Financial Services, LLC

We have audited the accompanying statement of financial condition of Spike Financial Services, LLC (the "Company"), as of March 31, 2009, that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Spike Financial Services, LLC as of March 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audit was conducted for the purpose of forming an opinion on the basic financial statement taken as a whole. The information contained in the supplementary schedules is presented for the purpose of additional analysis and is not a required part of the basic financial statement, but is supplementary information required by Rule 17a-5(d) under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in our audit of the basic financial statement and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statement taken as a whole.

SPIKE FINANCIAL SERVICES, LLC

Notes to Statement of Financial Condition

March 31, 2009

1. Organization and Business

Spike Financial Services, LLC (the "Company"), an Illinois limited liability company, was organized on November 8, 2000. The Company is a registered securities broker-dealer with the Securities and Exchange Commission (the "SEC") and is a member of the Financial Industry Regulatory Authority. The Company provides brokerage services electronically to retail customers and clears all customer transactions through other brokers on a fully disclosed basis.

2. Summary of Significant Accounting Policies

Revenue Recognition

Commission revenue and related expenses on equity securities are recorded as earned on an accrual basis.

Income Taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the respective income tax returns of the members.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

3. Related Party Transactions

At March 31, 2009, the Company had receivables from two affiliated entities and a payable to an affiliated entity totaling \$27,744 and \$5,453, respectively. During the year ended March 31, 2009, the Company made payments to and received a payment from Gateway Capital, LLC, an entity related through common ownership, totaling approximately \$11,000 and \$2,000, respectively, for certain shared expenses.

4. Members' Capital

The Company's operating agreement provides for two classes of members with varying rights, preferences, privileges and obligations. Class A members have voting rights, and have the sole power and authority to carry out management responsibilities and control day-to-day management of the Company's operations, including distributions and admittance of new members. Class B members have no voting rights and do not participate in management. In the event of sale or disposition of all or part of the Company's operations, Class B members are entitled to liquidation preference.

5. Off-Balance-Sheet Risk

Customer transactions are introduced to and cleared through the Company's broker on a fully disclosed basis. Under the terms of its clearing agreements, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines and, pursuant to such guidelines, customers may be required to deposit additional collateral, or reduce positions, where necessary.

Amounts receivable from broker-dealer represents a concentration of credit risk. The Company does not anticipate nonperformance by its customers or the broker. In addition, the Company has a policy of reviewing, as considered necessary, the creditworthiness of the broker with which it conducts business.

6. Minimum Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule 15(c)3-1. Under this rule, the Company is required to maintain "net capital" equal to the greater of \$5,000 or 6 and 2/3 % of "aggregate indebtedness", as defined.

At March 31, 2008, the Company had net capital and net capital requirements of \$76,266 and \$5,000, respectively.

7. Fair Value Disclosure

The Company adopted Statement of Financial Accounting Standards No. 157 ("SFAS No. 157") as of January 1, 2008, which requires, among other things, enhanced disclosures about investments that are measured and reported at fair value. SFAS No. 157 establishes a hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 Inputs: Quoted prices in active markets for identical assets or liabilities at the reporting date.

SPIKE FINANCIAL SERVICES, LLC

Notes to Statement of Financial Condition, Continued

March 31, 2009

7. Fair Value Disclosure, continued

Level 2 Inputs: Other than quoted prices included with Level 1 that are observable for substantially the full term of the asset or liability, either directly or indirectly. Level 2 assets include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities that are not active; and inputs other than quoted prices that are observable, such as models or other valuation methodologies.

Level 3 Inputs: Unobservable inputs for the valuation of the asset or liability. Level 3 assets include investments for which there is little, if any, market activity. These inputs require significant management judgment or estimation.

At March 31, 2009, the Company held no Level 1, Level 2 or Level 3 investments.

**INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL**

To the Members of
Spike Financial Services, LLC

In planning and performing our audit of the financial statements of Spike Financial Services, LLC (the "Company") as of March 31, 2009, we considered its internal control structure, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statement and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the "SEC"), we have made a study of the practices and procedures followed by the Company, including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- (1) Making quarterly securities examinations, counts, verifications, and comparisons
- (2) Recordation of differences required by Rule 17a-13
- (3) Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of the financial statement in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statement that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statement will not be prevented or detected by the entity's internal control.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at March 31, 2009 to meet the SEC's objectives.

This report is intended solely for the information and use of management, the SEC, the Financial Industry Regulatory Authority and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
